American + Red Cross

The Postal Authorities are reporting a delay in the mailing of overseas Christmas parcels. Have you sent yours yet? All Christmas packages must be mailed by the 15th of October. For the convenience of those who do not know, or have any difficulty in the correct wrapping of these parcels, the Red Cross has provided a daily worker in the Post Office to assist in the correct wrapping and mailing of all Christmas packages. Anyone desiring either aid or information do not hesitate to go to the Red Cross Worker in the Post-Office. She is there for your convenience.

A carload of paper salvage was shipped on Tuesday, October 3rd for the War effort. To the many folks who donated and baled this paper, deepest thanks. To our genial Mayor, the Honorable G. Y. Blaize, and to our very competent Commissioner of Public Utilities, Mr. H. Grady Perkins, much credit is given for their zealous and patriotic work.

Battles have been won—victories achieved, but the war is not over, and daily the fighting is more fierce for a speedier peace. Our men overseas are grim and determined. They want and intend to have a free world; for that they are shedding their blood. We must be just as grim and just as determined as they are. Our efforts must continue at their pace. A new supply of gauze has arrived at the Surgical Dressings Rooms. This gauze must speedily be made into the bandages that are so all important in the preservation of the fighting man. Workers are needed at the Masonic Temple Bldg., the rooms are opened daily. General Patton, with his heroic 3rd American Army, has set a precedent for us to follow. He blitzed his way through a country. Let us women at home blitz our way through a maze of gauze and produce the necessary dressings to staunch the blood that must flow to make the Bells of Freedom ring.

Production work has moved steadily whenever materials have been sent to our Chapter. This week mention must be made and credit given to the Production Ladies of Kiln, who made eight hundred Utility Covers for use in the Armed Forces Hospitals.

Chairman of Production for Hancock County, Mrs. G. Y. Blaize, has on hand materials for two hundred and fifty kit bags. Workers are needed to make these bags, which are of such essential comfort to the boys who are being shipped overseas. If you can sew, won't you please contact Mrs. Blaize and help with this service.

The regular quarterly meeting of the Executive Board was held on Friday September 29th, at the Court House Bldg. A special guest of this meeting was Mrs. Mary Alice Willis, Field Representative of the American National Red Cross. A report of Volunteer Services with work done for the past two months was given by the Volunteer Special Services Chairman. She reported that the functions of the following units and the hours of service given were responsible for the completing and shipping of the excellent work. Among those working were Staff, Canteen, Motor Corps, Home Service, Surgical Dressings, Production, Sewing, and Production, Knitting, with a total of 292 workers giving 2523 hours of their time. They shipped out 55,472 Surgical Dressings; 253 Kit Bags; 1300 Utility Covers; 12 Knitted garments.

Sgt. John L. Haas Cited For Outstanding Performance

15th AAF in Italy—Sergeant John L. Haas, son of Mrs. Allene S. Haas, Star Route, Bay St. Louis, Miss., is serving with a group recently commended for outstanding performance in the European Theatre of Operations.

As a member of a heavy bombardment B-24 Liberator unit, based in Italy, which has been cited for a sensational successful operation against the railroads at Bucharest, Rumania, he is now entitled to wear the Distinguished Unit Badge.

This group received citation for its remarkable feat in destroying 40 Nazi planes of all descriptions while achieving the destruction of the target. More than 90 planes attacked the Liberators, but unscathed, using rocket guns, cannon and machine guns, and aerial bombs in a desperate effort to halt the American bombers. The battle raged for more than an hour and a half and at its zenith, the big bombers dropped their lethal load on the marshalling yards and accomplished the return trip home with a loss of only seven planes.

The unit is commanded by Colonel Thomas J. Gent, Jr., of Victorville, California, and has participated in over 130 attacks against widespread targets in Hitler's dying empire.

Sgt. Haas' wife Katherine Moran Haas, lives on Star Route, Bay St. Louis, Miss.

Their many friends are feeling for them too and hope that they will soon have more reassuring news.

NATIONAL WAR FUND DRIVE TO OPEN ON MONDAY, OCTOBER 9TH

Breakfast At Hotel Reed 9 A. M. Monday Morning

The National War Fund Drive for Hancock County opens October 9 with a strong set up and everything is in readiness for a good and profitable campaign.

Hancock county has never failed to make its quota and this challenge is thrown to you that the quota of \$3375 be made within the dates of October 9-26. Do you accept the challenge?

A complete list of the channels through which this fund works was given last week and it is hoped that you are familiar with it and that you will take this as your opportunity and privilege to add to the fund which is spent for treatment, comfort and entertainment of the gallant men who are fighting your war for you while you stay at home and enjoy the comforts of home.

The Block leaders will call at all homes this week and next and you should be ready with your donation. Bob Hope puts it this way "You can't give till it hurts because it doesn't hurt to give your money but it does hurt to be wounded and bleeding." Think that over.

A young lady of Bay St. Louis asked a service man, whom she knew quite well, what he wanted for Christmas and his answer was something like this: "I want a dinner of fried chicken, hot biscuits, asparagus, fresh salad and pie." We laughed but is that funny? Between each word is a homesick cry when you think it over. Think it over and give to the limit in order that he and many others may be made less homesick and that the day of success of war may be advanced.

Money is a necessary commodity because it is the medium of exchange by which we get the food and clothing and shelter we deem necessary to our well being. But money now is the medium of exchange by which we cancel our debt to our boys who are preserving our safety.

Tennysen said "Things seen are mightier than things heard" and that is true and we at home read the papers listen to the radio and yet do not grasp the fearful suffering of the man in this war. Do we want to be able to look them in the face when they come home and say "I did my part?"

Again let us quote Bob Hope—"It would be good if civilians who complain about gas rationing would spend an hour in improving ground line hospitals watching 12 or 18 teams of steel fingered surgeons perform miracles of science on men who have performed miracles of courage. Or would look at the face of one of those young pilots on the day his buddy didn't come back."

"Thank heaven there are selfless groups that are giving everything they have to send Jack Benny, Martha Raye, Joe E. Brown and hosts of other brilliant entertainers to our men all over the world. The United Seamen's Service also gets its money from the fund. Last December, when explosions caused by German bombs wrecked 17 ships in an Italian harbor, it was the Seamen's Service that gave the surviving seamen clothes and shoes and good meals and cigarettes. The War Prisoners Aid, passes books and catchers mitts across the barbed wire of prison camps.

The National War Fund not only helps the American boys but is helping to ship food to starving Greece and medical supplies to Yugoslavia and clothes to the homeless of China.

Again the torch is thrown to you to keep this fund growing and growing until each and every needy victim of this holocaust is helped and peace again reigns.

Prior the philosopher said more than a hundred years ago "First, sir, I read, and then I BREAKFAST." And you have read this so be sure to breakfast at the National War Fund breakfast at Hotel Reed 9 A. M. on Monday October 9. The cost is \$45 and for this small fee you will have a delicious breakfast and have the privilege of hearing B. L. Burford, state director of the National War Fund address the group. Please make your reservation not later than Friday, October 6. Call Mrs. George H. Reed, Phone 246 or Mrs. Roger Bon, phone 319.

The list of workers for East V has been completed and is as follows:

Mrs. A. P. Smith, Bay St. Louis, chairman; Miss Elsie Spori, co-chairman and under the Woman's Division and Block Leaders the workers are Mesdames John Bell, Frank Martin, Chris Netto, Oscar Bragg, Roy Baxter, H. Grady Perkins, Josie Olsen, Leo Ford, H. L. Kergosien, will be open each day.

FIRST ELECTORS ON TICKET ARE DEMOCRATS

Wood Clarifies Ballot for Voters

Secretary of State Walker Wood said yesterday that his office had received many letters asking for a clarification of three sets of presidential electors placed on the sample ballots mailed out to circuit clerks and county election commissioners.

Under the Mississippi Law it is not permissible to distinguish the sets of electors by political party. Only the three sets of electors were placed on the sample ballots mailed out. Most of the letters were from parents of soldiers, who had no way of knowing what set of electors represented the party that they wished to vote for, it was pointed out.

Mr. Wood said that the first nine presidential electors on the ticket are the Democrats and they are Clarence E. Morgan, Walter S. Welch, T. J. Tubb, Curtis M. Swango, Frank E. Everett, J. B. Perry, Jr., R. C. Russell, John Backstrom and W. G. McLain. The second set listed are the Republicans and the third set represent the Independent Republicans.

On the ticket for the Congressional race, the Democratic nominees appear first. They are: First, John E. Rankin; Second, Jamie L. Whitten; Third, W. M. Whittington; Fourth, Thomas G. Abernethy; Fifth, W. A. Winstead; Sixth, W. M. Colmer; Seventh, Dan R. McGehee. The name coming second on the ticket for Congress in the respective districts are the Republicans.

ST. STANISLAUS VALEDICTORY ADDRESS RECEIVES PUBLICITY

Hon. William M. Colmer Has Speech Inserted Into Congressional Record

Because of the noble sentiment expressed and the manner in which it was delivered, the Valedictory address of James C. Carter of Class '44 was placed in its entirety into the Congressional Record. This is a fitting tribute to Mr. Carter who was an outstanding student during his years at St. Stanislaus. The entire address was composed by him without any help from his instructors. The school feels honored in that it gains added recognition as an institution of solid learning. Jimmy's background and preparation obtained here furnished him with the knowledge necessary in writing his excellent valedictory address.

Mr. Colmer in causing the Address to be inserted into the Congressional Record commented as follows: "Mr. Speaker, under leave to express my remarks in the Record, I submit herewith a very able and timely valedictory address. The address was delivered by Mr. James Carter, of New Orleans, La., the valedictorian of the class of 1944 of the St. Stanislaus college of Bay St. Louis, Miss. Due to the favorable light in which the efforts of this splendid young man were received, and at the request of some interested parties, I submit it for the CONGRESSIONAL RECORD."

The entire valedictory Address followed—St. Stanislaus Rock-A-Chaw.

Your loving son, Private Joseph C. Baxter, Jr."

Unquote: This broadcast supplements previous official reports received from International Red Cross.

The above came over the Western Union from Washington. They also had a letter from Mrs. Neva H. Newman, 416 Alabama Street, San Gabriel, California, enclosing a copy of the broadcast which she had heard over her radio.

J. C. was taken a prisoner of War at the fall of Corregidor and was later moved from a German prison to a Japanese prison.

INSPIRING THOUGHTS

IT is now 7:05, the day is fading into dusk and I have just come in from officiating, as Junior Officer of the Day, at retreat. It was my duty to preside at the lowering of the colors and to fold up our flag, preparatory to stowing it for the night. The band was on hand and played one number, marching up and down the road, as a preliminary to the main ceremony.

"After the 'Star Spangled Banner' (during which the flag was lowered) another march was played while I marched with 'Old Glory' clasped to my breast, to stow it for the night. As I covered the distance from the mast to the Administration building, I thought of how, at this very moment, many of my fellow Americans are shedding their life's blood so that our flag may again flutter in the breeze over neighboring islands and far away battlefields.

"Somehow or other I reflected on how little our 'Star Spangled Banner' meant to me as an American civilian, or even as a serviceman while I was yet on American soil. But now that I am far away and can see (because the nearness does not blind me), I am becoming more fully aware, day by day, of the strength, the beauty and the meaning encompassed in those artistically arranged, red, white and blue pieces of cloth. I can see that they stand for the happy days of my childhood; the cheerful years of my education in schools where freedom was an expectant by-word; the hours of prayer and worship in the Faith of my own choice; the love and tender care of you my parents; the playful companionship of my brothers and sisters; the wide circle of affectionate friends concerned with my welfare; the liberty of exercising my heart's choice in the selection of my beloved wife; the right to have my own home, my own son; the privilege of working where I want to and for whom I desire; the newspapers I so anxiously scan for news which is unadulterated by the whim of some overlord; the right to join or belong to the organizations I select.

"Those are a few of the manifestations bestowed upon me as an humble servant, serving under the flag which I now understand, and, understanding, appreciate more fully.

"It is so unfortunate that many have died in defense of it, never having taken time to reflect on its full meaning and merit. In the future, I know I will unconsciously be more reverent towards it, and guard more closely my rights under it.

"This may sound like a philosophical soliloquy, but I know you are interested in what thoughts occupy the minds of us 'out here,' and I do want you to realize that all of our waking hours are not spent in complaining, or anticipation of the unexpected and unpleasant.

"Many are the hours, especially those of the twilight, when our duties permit, that we engage our minds in pleasant reverie, enjoying fond and sweet memories of those days gone by and which we hope to soon again enjoy."

Beautiful, indeed are the inspiring thoughts carried in the letter quoted above from Chief Electrician's Fate, L. C. Fourrier of the U. S. Navy Sea Bees, to his parents, Mr. and Mrs. Lawrence Fourrier of Baton Rouge, Louisiana.

This young man has been overseas for over a year and is married and the father of one child. He is a brother of Brother Felician of Saint Stanislaus.

We are certain that he expresses the thoughts of many an American soldier and sailor. He is thinking of what he has had in the past and seemed not to appreciate, and realizes at this time what the American way of life has meant. He is looking to the future, hoping as many others that, that way will continue.

Boys of this type are making every sacrifice, even to giving their lives so that we may continue to enjoy that which we have had. If it were possible for every American to feel as this boy does, it would mean much for the future of our country.

U. S. ROLE IN WORLD AFFAIRS

THOSE of us who hope to see some international organization of the powers to restrain aggressors and to maintain the peace of the world might as well realize that it cannot be accomplished unless the United States is willing to put something into the undertaking besides words and resolutions.

It is conceivable, of course, that the effort will not succeed, even if we give it wholehearted support. Certainly, without our participation it will have no chance whatever.

We have tried the policies of isolation and excessive nationalism. We have nonetheless, been dragged into another world war. It is reasonably certain that the same policies, pursued in the future, will lead to our involvement in the next worldwide conflict that comes along.

As we see it the only chance of preventing another great struggle lies in the creation of some form of international justice, backed by the might of the larger nations. They must not only yearn for peace but make some sacrifices and take some risks in its behalf.

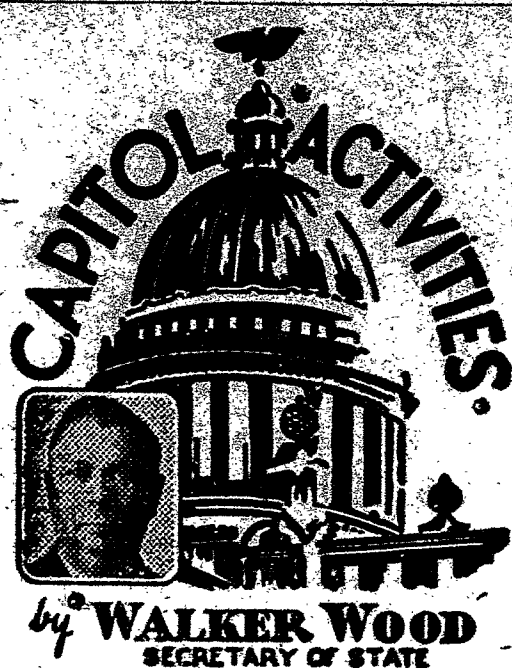

To believe, as many Americans believe, that one American is more important than ten foreigners is silly. To assert that no nation will dare attack us in the future is absurd in the light of Pearl Harbor and the declarations of war that deluged us from Europe.

No matter what kind of economic wall we erect between ourselves and the peoples of the world the strife of a great war will come over the top. Anyway, as we see it, it is about time for the United States, as a nation, to reach manhood and take an adult role in the affairs of the globe.

There should be no punishment of our enemies, just for the sake of making them suffer. Everything they are required to do should relate to the undoing of what they have done.

Many parents are making a mistake in permitting their sons to quit school to make a little easy money. Then years from today, they will see how unwise this can be but it will be too late.

Money may not win wars but it prevents a nation from losing them; dig down and support your government by making an investment in War Bonds, the best security on the market today.

Insurance Rates Reduced

It has been announced that fire insurance rates in the state have been reduced by the Insurance Commission so as to effect an annual saving in premiums of approximately \$287,000,000. A good portion of the reduction will go to farm property and the remainder to general residential property and household goods. In the past six years rates have been reduced to effect a saving in premium rates of approximately one and a half million dollars annually. The Commissioner of Insurance, Hon. Jesse L. White, is ex-officio chairman of the Commission and the three members are: W. T. Wynn, Greenville; Neville G. Allen, Laurel; and C. H. Calhoun, Grenada. The reduction just made has been commended by Gov. Thos. L. Bailey.

State Taxes

In the first twenty-six days in September the sales tax brought into the state through the Tax Commission, \$938,388.08, and in the same period the income tax collection ran up to \$1,533,255.78. The total amount collected from all sources in the twenty-six days was \$3,083,507.99, which topped the same period last year by nearly 350 thousand dollars. The amounts collected from income and sales tax denotes a healthy business condition in the state.

Judge Broom

Stewart C. Broom, able and well-known lawyer of Jackson, who for the past six years has been assistant federal district attorney for the southern district has resigned that position to accept the position of chief trial attorney for the OPA in Mississippi. In this connection W. A. Byrd has been named as enforcement attorney for the OPA, succeeding Ed Currie of Hattiesburg, who resigned to enter private practice. The successor to Judge Broom has not yet been named, but probably will be seen as the resignation was effective October first. This office is the patronage of Sen. Eastland and Hon. Toxey Hall, is the district attorney.

Traffic Deaths

In the first seven months of 1944 there were 12,620 people killed in motor vehicle accidents in the United States. This is an increase of eight per cent over the same period of 1943 but a decrease of 38 per cent in the all-time high of 1941. In Mississippi in 1944 the record stands at 165 killed in the seven months included in the check-up, compared to 145 in 1943 and 251 in 1941. This bad record has been made in spite of the many warnings issued and precautions taken. Add to this record all who have been hurt in wrecks, many crippled for life, and it is appalling.

"We wanted no Profit from the war... and we have made none"

H. S. DUMAS, President

(Quotation from speech accepting Certificate of Appreciation from Chief Signal Officer United States Army)

Though the Southern Bell Telephone Company is now doing the largest volume of business in its history its earnings are at the lowest rate they have been in many years.

This condition has been brought about by the fact that for a number of years the cost of operating the business has increased at a greater rate than have revenues. And while operating costs have been steadily rising, rates charged for telephone service have been reduced.

Users of long distance service alone are saving millions of dollars annually as a result of the rate reductions made during the past several years.

Though operating costs have greatly increased, and telephone earnings are less, telephone users are getting more service for less money now than ever before.

Need For WAVES Continues

New Orleans, Sept. 30.—The continuing need for WAVES is emphasized in a recent release by the Navy Department which stated that present enlistment quotas for the Women's Reserve will continue in effect to December 1, when the quotas will be reduced to approximately 500 per month.

By December 1, it is expected that total enlisted personnel in the Women's Reserve will approximate 75,000 and officer personnel will reach approximately 9,000. This number is expected to cover current needs in jobs for which women are qualified, although this will be increased if future requirements indicate that additional women can be used.

The monthly enlistment quota of 500 is expected to be sufficient for replacements and for future additional Navy requirements for enlisted WAVES.

ORTE THEATRE SUNDAY AND MONDAY "COBRA WOMAN"

Presented by Universal in Technicolor, Starring Maria Montez, Jon Hall—Sabu

A mythical South Seas paradise provides an exotic background for Universal's "Cobra Woman." Latest Technicolor production to star the popular trio, Maria Montez, Jon Hall and Sabu. The exciting new screen adventure comes Sunday and Monday to the Ortte Theatre. Featured in a distinguished supporting cast are Edgar Barrier, Lois Collier and Mary Nash. Moroni Olsen, Samuel S. Hinds and Lon Chaney have leading roles.

Action of the picturesque-drama centers around the romantic affairs of a glamorous princess and her twin sister. Miss Montez is seen in both portrayals. The actress, who scored outstanding successes in "Arabian Nights" and "White Savage," is said to be even more colorfully attractive in "Cobra Woman." Sequences in which her dancing highlights primitive rituals, are described as vividly spectacular.

Hall is seen as a cruel monarch and her scrupulous Minister of Affairs. Lurid sacrificial rites and intrigue among the court follows are dramatic preludes to the conspiracy in which the twin sister of the princess is restored to the throne.

Lavish settings and the brilliant costumes of the multitudes of dancing girls and atmosphere players, are claimed to enhance the effectiveness of the picture.

Two well known photographers, George Robinson and W. Howard Green, handled the cameras, while Natalie Kalmus was the Technicolor director.

"Cobra Woman," an original story by W. Scott Darling, was scenarified by co-writers Gene Lewis and Richard Brooks. The special dances were supervised by Paul Oscar.

Robert Siodmak directed and the film was made under the skillful producer of George Waggoner.

OUR TOWN.

Ours is the best town in the whole U. S. A. because it's home. It lies in the deep South and in a state rich in tradition and history. It is blessed with climatic conditions contributing immeasurably to better living. The area in which our town lies enjoys many natural resources in abundance, and has excellent transportation, power, and other utility facilities. It has a substantial degree of agricultural and industrial development with broad opportunities for wise growth in these basic activities.

Fine as it is, however, we can make our town better through a fuller appreciation of our resources and a more whole-hearted cooperative effort in looking to and planning for the future.

Some day, before long we hope, the boys coming home—richer in experience, anxious for opportunities, and perhaps a little critical of our progress in their absence.

Let's begin to accelerate our thinking about the future and our community plans for a sounder social and economic growth and development in which they can find a place.

They ask no more than we want to give them—a chance to make a productive contribution to better living and the resulting opportunity to live and enjoy the kind of life we all long for.

This advertisement is one of several touching on possibilities for community planning in this respect.

Since late 1943, as the war effort has permitted, Mississippi Power Company has been preparing and distributing to community groups and national industrial organizations, data on the postwar situation in this area and considerations involved in meeting it. A limited supply of this material remains available to interested individuals or groups, and we will be glad to answer any inquiry in this connection.

Our town has prematurely aged during the war. Whether our town is large or small—and although it has not suffered the ravages of combat—war has left its mark. That paint job wasn't done, needed repairs have been deferred, the new room we planned to add, the bit of work here and there that we had meant to do, the new appliances we had meant to buy—these things were left undone. It has not been possible in many cases to keep our yards—our streets—our public grounds as we would like to have them.

This aging of our town is a tiny part of war, as war goes, but it and what we do about it will be a mighty part of peace. Here is the front line of the post war offensive. Here is where every property owner and every citizen is a full and complete partner in post war plans.

Back from the front in rest areas our fighting men first want to be clean—to have fresh, dry clothes. When they come home—back to our town—after war has ceased, their whole outlook may depend on what they find us doing.

And not only will that spirit called morale be lifted by general signs of a renewed normal life but jobs and livelihood opportunities will flow in a swelling stream from the multiplied activities of each of us in starting once again to do those things the war has stopped.

Back into our town will come our sons and daughters who have seen much of the best the whole world has to offer—will they be satisfied now with our town? Into our town will come men considering places for the establishment of new industries—will they be impressed with our town? Here in our town we will live out our days—will we be proud of it?

Now is the time for each family to start to plan the things they want to do to make our town more beautiful and livable—after the war is won.

Now is the time as community groups to plan new paint and repair jobs, new street lighting, new building fronts, new fixtures and appliances, new yard and public area beautification.

Now is the time to keep faith with our men and women in the services by starting these simple individual and community plans which can mean so much when V-day dawns.

BAND REORGANIZES IN PREPARATION FOR FOOTBALL GAMES

Brother Romuald Foresees Good Year In Prospect

(By Joe Reuther)

Under the skillful direction of Brother Romuald, Band Master, the tedious work of Band reorganization has been practically completed. All in all, prospects for another superior Band are in the making. The music department, however, suffered a temporary handicap in so far as several of the members of the department are participating in football. Among these are such outstanding musicians as Eddie Steiner, clarinet artist and librarian; Jimmy Fayard, able saxophone player; and Andrew Seaford, talented horn player. If these boys play football like they handle music, they should prove stellar members of the Varsity team.

Of course these boys will continue their musical training. After the football season they will help round out the Band into a first class outfit.

Brother Romuald expressed himself as being well pleased with the fine talent on hand. With plenty of practice and hard work another traditionally good Band will be at the service of the school.

"Nothing in the Act of Congress prohibits OPA from raising ceiling prices at any time, without advance notice, as in cases where crop hazards have cut production, and the ceiling prices must be raised to give growers a fair return," he pointed out. "However, OPA strives to keep all persons, from grower to consumer, informed at all times of maximum prices on all commodities."

"1945 SENSATIONS" AT A. & G. THEATRE SUNDAY AND MONDAY

Andrew Stone's new musical, "Sensations of 1945" at the A. & G. Theatre, Sunday and Monday has everything one would want from a musical—and more. It has a splendid cast headed by Eleanor Powell (Miss Taps, herself), with Dennis O'Keefe, W. C. Fields, C. Aubrey Smith, Sophie Tucker, Eugene Pallette, Mimi Forsythe, David Lichine in solid supporting roles. It has two of the top swing bands in the country, Woody Herman and his hi-de-ho-ness of swing, Cab Calloway. It has some of the finest circus acts in the entire world and it has nine of the snappiest, gayest tunes a foot-loose jitterbug ever shook a foot to. Besides all of these attributes it has one we give special mention—girls, girls, girls!

Mr. Stone, who apparently has his finger strategically planted on the public pulse has produced a film that sparkles with all of the "escapist" funning any audience could possibly desire. With a combination like W. C. Fields, Eugene Pallette and Sophie Tucker giving out with their inimitable routines, need we expound?

Unlike the average, or "spectacle" musical, "Sensations" boasts a top notch plot written by Frederick Jackson, a writer of more than a score of hit musical comedies.

The story concerns one Ginny Walker (Eleanor Powell), a dancer who takes over the management of an almost defunct publicity office and blows the breath of life into it.

Her first step is to engineer the opening of a club called "Circus in the Sky." Here, miles above Manhattan, the best circus acts in the world, the Pallenberg bears, Mel Hall world's champion unicyclist; the Copeland, headliners of the roller-skating world; Hubert Castle, the devil wire-walker; the Johnson Brothers, Indian Club swingers, and the Flying Christians, daring tumblers and teeter-board artists; the wonder horse "Starless Night," perform for the blase habits of cafe society.

The club becomes world famous when Hubert Castle walks the high wire across the Royal Gorge in Colorado all for sweet publicity's sake. From that moment "Circus in the Sky" is an established institution and "Powell" a name to be reckoned with.

Following the success of "Circus in the Sky" Eleanor opens the "Old Plantation," featuring Cab Calloway and a host of other Negro artists, most notably Dorothy Donegan, outstanding "boogie-woogie" pianist. Once more the enterprise is a phenomenal success and Eleanor leaves to find use for her talents at the "Gay Nineties Club" which stars Sophie Tucker. At the "Gay Nineties" Powell goes back to her first love and dances two terrific routines; one a "pin ball" number in which she dances on a tremendous pin-ball machine, complete with lights and "tilt;" the other a jitterbug dance with David Lichine.

MISSISSIPPI TO BE SPORTSMAN'S PARADISE

A sportsman's paradise—increased ammunition and abundant supply of game—is assured Mississippi hunters during the approaching season.

Relaxation of federal regulations accounts for the additional ammunition being made available, while strict enforcement of bag limits and game laws assures an abundance of game.

In addition, extended hunting seasons are in effect this year, with the dove period running for 55 days against 30 last year, and on ducks and geese 82 days, or ten more than last year.

Mississippi's hunting season officially opened September 16 on squirrels in counties north of U. S. Highway No. 82 and will close December 15. In other sections of the state, the squirrel season opens October 1, to close December 31.

A "concession" to hunters this year will permit them to hunt quail for one day—Thanksgiving—before formal opening of the regular season on December 10. Officials of the Mississippi State Game and Fish Commission said the Thanksgiving Day

WAR RATION BOARD COLUMN

Ration Calendar For Week Of October 2.

PROCESSED FOODS: Blue A-8 thru R-5 (Book 4) now valid at 10 points each. Blue tokens now invalid. Stamps good indefinitely.

MEAT AND FATS: Red 8-A thru K-5 (Book 4) now valid at 10 points each for use with tokens—both good indefinitely.

SUGAR: Sugar stamps Nos. 30, 31, 32 and 33 now good for five lbs. each indefinitely.

CANNING SUGAR: Airplane stamps No. 1 and No. 2 (Book 3) valid indefinitely. A new stamp is to become good November 1.

GASOLINE: A-13 coupons now valid in Mississippi through December 21, 1944.

Rationing rules now require that every car owner carry his license number and state on all gasoline coupons in his possession as soon as they are issued him by his rationing board.

The ration value of creamery butter was increased from 16 to 20 red points on October 1. A. H. Gregory, chairman, County War Price and Rationing Board, announced today.

Seasonal decline of production allowed the War Food Administration to allocate only 85,000,000 pounds of creamery butter for civilian use during October, representing a 10,000,000 pound decrease from the September allocation and necessitating the higher point values. Although fluid milk production is at record heights, creamery butter production is approximately 12 per cent below the same period a year ago.

According to the usual seasonal trend, production will decrease in November and begin to rise again in December and January toward the spring and early summer production crest.

Until that time, Mr. Gregory pointed out, "we civilians are going to have to get along with less butter than formerly—at least during the next 90 days or so."

The Office of Price Administration has announced a new, but yet unidentified, coupon will become valid for purchase of one new pair of rationed shoes November 1. The new stamp, like Airplane stamp 1 and 2, will be valid indefinitely.

Advance notice of the decision to make another stamp valid for shoes was made by OPA to allow retailers to adjust stocks accordingly. The proposed validation carries out OPA's intention to make valid a new stamp each 6 months as long as civilian supplies make such action possible.

Maximum prices announced by OPA for processors and primary distributors are expected to result in retail prices 5 cents per pound lower than last year for dried apricots but about the same for dried peaches and pears and for packaged, bulk and sliced figs and fig pastes.

At the primary distributor and processor levels ceilings for prunes, raisins, sliced figs and fig pastes were increased; decreased for packaged and bulk figs and apricots; and remain the same for dried peaches and pears.

The Atlanta Office of Price Administration announced today 35 court actions, asking treble damages totaling \$2,000,000 have been filed by OPA this year against concerns charged with upgrading Southern pine lumber to obtain higher than legal ceiling prices.

In addition, two criminal actions have been started and one of these concluded with defendants paying fines totaling \$39,000 into Federal court. Also, 59 court injunctions have been requested to restrain Southern pine sellers from obtaining higher than ceiling prices by such illegal upgrading practices as invoicing a buyer for higher grades of lumber than actually shipped.

Pointing out that Southern pine is a vital war material urgently needed in war production for manufacture of boxes and crates for munitions and foods and for rebuilding landing docks in captured European ports, OPA said the criminal proceedings, treble damage suits and injunctions were part of a continuing broad campaign by OPA's enforcement wing.

Although rationing of civilian bicycles is ended, dealers are required to hold all records of rationing sales, inventories and the like for six months, Chairman, County War

Price and Rationing Board, announced yesterday.

Removal of the velocipedes from rationing was possible because so few bicycles are on hand and scheduled for production, Mr. Gregory pointed out.

Bicycles were rationed first in May, 1942, when the national stockpile numbered some 200,000. This stockpile, plus Victory models produced since that time, has been reduced to the point that current supplies and future production are too low to make worthwhile the burden of rationing on war price and rationing boards or the public.

New passenger car quotas for October for Mississippi are the same as the all-time low reached in August. Mr. Gregory, Chairman, County War Price and Rationing Board said today. Future quotas will be even lower in all probability, Mr. Gregory pointed out.

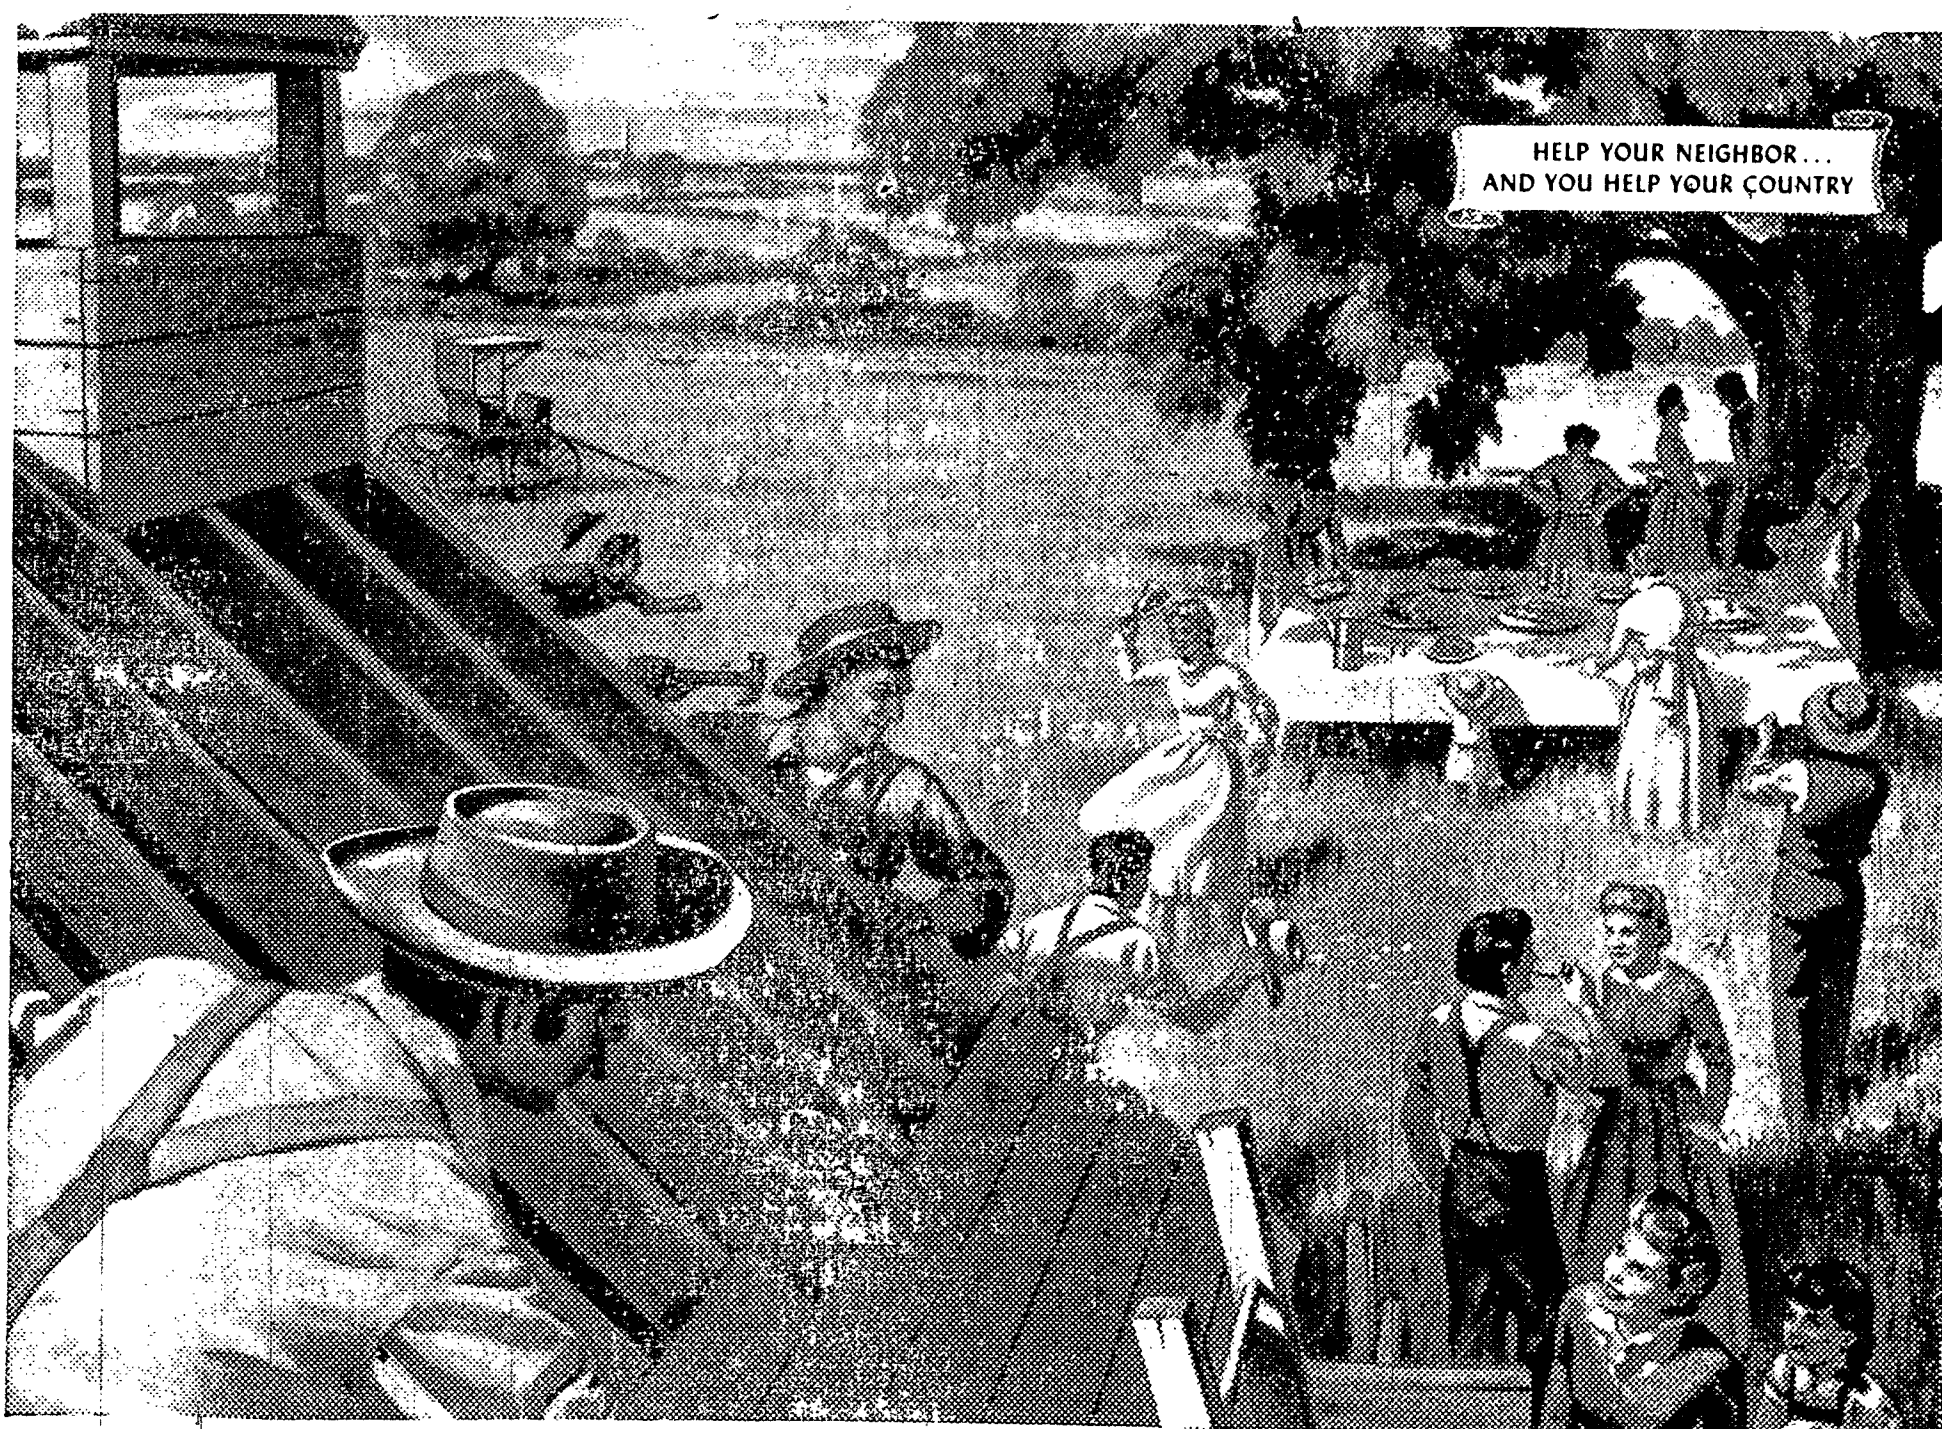

In the Mississippi district, the quota is 33. Regional quota is 362, and the national quota is 3,000. Current inventories of new passenger cars are now below 20,000, which is normally less than a two day supply, Mr. Gregory declared.

An amendment to the tire rationing order effective September 28 was announced today. The provision will allow the manufacturer or manufacturer's branch to transfer to the dealer without certificate up to 50 truck tires low reached in August. Mr. Gregory, Chairman, County War Price and Rationing Board said today. Future quotas will be even lower in all probability, Mr. Gregory pointed out.

In the Mississippi district, the quota is 33. Regional quota is 362, and the national quota is 3,000. Current inventories of new passenger cars are now below 20,000, which is normally less than a two day supply, Mr. Gregory declared.

It is urged that all eligible dealers make immediate application for a reasonable stock of truck tires to a manufacturer or manufacturer's branch.

Confusion among some growers and primary shippers today prompted, Mr. Gregory, Local War Price and Rationing Board to outline the Office of Price Administration's policy of notifying growers in advance

They Builded Better Than They Knew

With the help of the neighbors, many a little red schoolhouse was built. That readiness to help the folks down the road and the family across the square was the strength of our early America, the foundation for our democracy. Because of it, we have a greater heritage to defend than any other people on Earth.

In these wartime days, the spirit of neighborliness so characteristic of our people is again paying dividends. Did

you ever dream ten years ago that today you would pull up to the curb and offer a ride to a stranger? That you would have a bundle of salvaged paper ready when the Boy Scouts called? That you would walk home with awkward packages because your dealers have difficulty making deliveries? When you aid your neighbor, you aid your country. Isn't it surprising how many things one person can do to help win the war?

People who get results agree that there is no substitute for hard work and also that recreation and relaxation are essential to accomplishment. In your well-earned leisure, select a beverage of moderation. A tall, stately glass of Budweiser is a standing invitation to make your moments of relaxation complete.

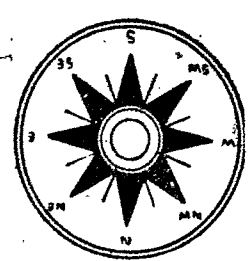

Anheuser-Busch produces materials which go into the manufacture of: Rubber • Aluminum • Medicines • B Complex Vitamins • Hospital Diets • Baby Foods • Bread and other Bakery products • Vitamin-fortified cattle feeds • Batteries • Paper • Soap and Textiles—to name a few.

Poor Father

"Mama, what becomes of a car when it gets too old to run any more?"

"Why, somebody sells it to your father, dear, as a used car, 'as good as new.'"

The Shopwalker—"Poor old Perkins has completely lost his hearing. I'm afraid he'll lose his job."
